Subject: FW: Dangerous Monitoring Well

Hi Stan

Sorry it took so long to get back to you. I had just started a 2 week vacation when your email was sent and then we needed to round up the info from the responsible party at Liberty.

So the short answer is "no" it is not a Liberty well.

Hope things are going well with you.

Regards

Doug

Sorry for late reply, Doug. Had to also confirm it with Ralph Golia. It is definitely not one of ours. Not only we don't have any of those multi-level well nests in a single manhole, it is also much farther west (0.6 miles based on Google Earth) than any of our wells.

I assume you will convey the info to Stan. If not, let me know. Thanks.

Hi Lorenzo

Do you know if this is a Liberty well?

Subject: Dangerous Monitoring Well

Hi Doug,

Hope all is well and you are enjoying Summer.

Was hoping you could help me track down who owns the attached monitoring well? See photo and map attachment.

The cover is missing and it is dangerous.
